

**Supplementary Figures for “Is everything in order? — Re-thinking the boundary of the created kind” (Answers Research Journal)**

Matthew Cserhati

**Supplementary figure 1.** Elbow plot for the Crocodylia analysis showing the total within sum of squares value for each cluster, calculated from the mtDNA sequence similarity matrix.

**Supplementary figure 2.** Silhouette plot for the Crocodylia analysis showing the average silhouette width for each cluster, calculated from the mtDNA sequence similarity matrix.

**Supplementary figure 3.** MDS plot for the Crocodylia analysis showing the four putative clusters in two-dimensional space.
